Education

College

I am excited to be a freshman at Purdue University in Computer Science. I thoroughly enjoyed participating in the Early Start program, getting a head start on class in July. I hope to find some great opportunities for gaining experience over the summer of 2024!

Highschool

Homeschooling gave me a love for learning, a desire to be helpful, and a great work ethic. I am a team player and love meeting different people.

Experience

Chick-fil-A

Working at Chick-fil-A taught me how to conduct myself professionally and work quickly under pressure. I communicated in a variety of ways and responded quickly. As a Team Lead, I filled roles including:

- Training new recruits
- Maintaining a clean environment
- Food preparation
- Customer service and order taking
- Closing and opening operations

The Data Mine

I am working with The Data Mine learning community at Purdue University to learn management of large data sets using tools including R, SQL, Python, and Bash.

Skills

- Basic Java
- Heavy tools and machinery
- 3-dimensional modeling
- Blender animation
- Part fabrication and implementation
- Maintaining a clean environment
- Solving abstract problems
- Excellent written and verbal communication
- Competitive archery
